

Forwards.

A long list of features made short.

FOR THE PROBLEM
RICH BUT TIME POOR.

For those with little time to even browse our ebrochures or digitally thumb through the pages of our web site we have quickly listed below the twelve most mentioned benefits from client feedback.

No1. Record every type of asset from a corporate logo trademark to a thorium nuclear power station.

No2. Record and track all components of any asset from the contract on a mobile phone to the tungsten toughened tip bucket of a coal dragline.

No3. Record the custodians of all assets from the personal expense account of a single sales person to an entire government department.

No4. Track repair histories to know which assets are costing your company hard won income.

No5. Reduce the production halting and profit eroding downtime of your assets.

No6. Decrease the number of lost assets.

No7. Monitor the performance of your assets in real time no matter where they are across the hall, or across the Atlantic.

No8. Make the strategically correct decisions based on up-to-date highly accurate information.

No9. Be able to compute multiple depreciation calculations.

No10. Give the right information to the right people with extensive reporting capabilities.

No11. Run your asset register and maintenance management tasks across the internet.

No12. Carry out comprehensive maintenance management for all types of assets from a desktop printer in head office to a slurry pump station high in the Andes.

Some problems are simple ones solved with the ability to import existing spreadsheet data.

Another simple problem can be solved with the capability of easily including photos with a file to verify that indeed reality matches the data.

PINNACLE.

Pinnacle Software Pty Limited. Level 12, 321 Kent Street, Sydney, NSW 2000, Australia. Telephone +61 2 9224 0980. Facsimile +61 2 9224 0955. A toll free inquiry line for Australia 1800 464 024. Published April 2008. The ownership and all legal rights to the design style used here, and the corporate logo reside with Pinnacle Software Pty Limited.
